Final	9/21/2016	<b>CLEAR</b>

### PROJECT SUMMARY *(for Review Panel reference only)*

The Nisqually Land Trust proposes to acquire 185 acres, in fee simple, including 0.93 miles of river shoreline, 151 acres of riparian habitat, and 34 acres of forested upland. The target acquisition property is one of the last large undeveloped shoreline properties on the Nisqually River and approximately 100 acres are in the active channel migration zone.

### FINAL REVIEW PANEL COMMENTS

**Date:** 9/21/2016

**Final Project Status:** Clear

**Review Panel Member(s):** Full Panel

1. If the project is a POC, please identify the SRFB criteria used to determine the status of the project:
2. If the project is Conditioned, the following language will be added to the project agreement:
3. Other comments:

### POST-APPLICATION REVIEW PANEL COMMENTS

**Date:**

**Project Status:** Click to choose a status

**Review Panel Member(s):**

1. If the project is a POC, identify the SRFB criteria used to determine the status of the project:
2. If the project is a POC, identify the changes that would make this a technically sound project:
3. If the project is Conditioned, the following language will be added to the project agreement:
4. General comments:

#### SPONSOR RESPONSE INSTRUCTIONS:

If your project is not cleared (i.e. has a status of NMI, Conditioned, or POC) you must update your proposal, PRISM questions, or attachments as necessary to address the review panel's comments. Use track changes when updating your proposal. Fill out the section at the end of your project proposal to document how you responded to comments.

### DRAFT APPLICATION / SITE VISIT REVIEW PANEL COMMENTS

<sup>1</sup>CLEAR=Cleared to proceed; CONDITIONED=Cleared to proceed with a condition; NMI=Needs More Information; POC=Project of Concern; NOTEWORTHY=Exemplary Project

Project Site Visit?

☒ Yes ☐ No

Review Panel Member(s): Powers and Tyler

**1. Recommended improvements to make this a technically sound project according to the SRFB's criteria:**

The proposed project is consistent with SRFB criteria as currently written. Acquisition of the target parcel would prevent development associated with negative impacts to salmonids.

At the time of final application, please provide an update on the possibility of alternative funds being used for the 34 acres of upland forest.

**2. Missing Pre-application information.**

Provide a site topographic map which denotes river and floodplain features and uplands. The floodplain portion of the downstream area of the site appears to extend into the Wilcox Farm Area, is this correct?

**3. General Comments:**

**4. Staff Comments:** Grant Manager comments provided separately via pdf.

### SPONSOR RESPONSE INSTRUCTIONS:

Revise your project proposals using "track changes" and update any relevant PRISM questions and attachments. Fill out the section at the end of your project proposal to document how you responded to comments.
